And
Northeast State Community College**

THIS AGREEMENT (the "Agreement") is entered into on April 7, 2015, by and between Austin Peay State University ("the university") and Northeast State Community College ("the community college"). The parties desire to enter into a contract pursuant to which students participate in a program designed to assist students in obtaining an associate's degree and progress directly to a bachelor's degree program; or, to transfer course credits from the university to the community college in order to complete an associate's degree, according to the terms contained in this Agreement.

ACCORDINGLY, in consideration of the promises and mutual covenants contained in this Agreement, and of other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. Description of Dual Admission / Reverse Transfer

a. Definitions.

Dual Admission. A student enrolled in a community college is admitted into a university but does not enroll in university courses until the student graduates with the associate's degree. Throughout this program students will receive cooperative advising.

Cooperative Advising. The dual admission program provides enhanced advisement and transition support services by both institutions to the student. The university will allow participating community college students to register for university courses during the normal "priority" period provided for currently enrolled APSU students based on earned hours. Students will be required to speak with an APSU academic advisor before registering. The community college will assist students in selecting courses appropriate for transfer credit.

Reverse Transfer. A student completes courses at the university which may be transferred back to the community college to help fulfill the associate's degree requirements. Students must complete a total of 25% earned credit hours towards the associate's degree at the community college to pursue reverse transfer from the university to the community college to earn an A.S. or A.A.

b. Purpose.

The purpose of this Agreement is to establish programs to promote successful experiences for students who wish to complete a degree.

More specifically, the goals are:

1. To eliminate barriers for students in attaining their educational goals.
2. To improve academic program articulation.
3. To improve student success and retention.
4. To provide a curriculum plan for students for seamless transition for earning an associate's degree and a bachelor's degree.
